

Amendments to the Specification

Please replace the paragraph at page 1, line 14, with the following rewritten paragraph:

-- Variety of *Prunus ~~persea~~ persica*, denominated as 'Janet'. --

Please replace the paragraph at page 3, line 11, with the following rewritten paragraph:

-- The present variety of peach tree was discovered by the inventors in their peach orchard located at the southwest intersection of Pennington Road and Billings Road, 2 miles outside of Live Oak, California in Sutter County. The inventors discovered this seedling in a commercial planting at 'Bowen' (unpatented) clingstone peach trees in the early 1990s. The new variety was first asexually reproduced by the inventors in 1993 by budgrafting on 'Lovell' peach rootstock (unpatented) at a location approximately 2 miles southwest of Gridley, CA on Block Road. The asexually reproduced trees first bore fruit of the new variety in July 1995. The inventor carefully compared the asexually reproduced tree with the mother seedling, including the fruit thereof, and is in all respect identical, stable and reproduces to type in successive generations of asexual reproduction. --

Please replace the paragraph beginning at page 4, line 11, with the following rewritten paragraph:

-- Referring more specifically to the pomological description of this new and distinct variety of peach tree, the following has been observed for a tree approximately ten years old, under the ecological conditions prevailing in the orchard, located near Gridley, California in the Sacramento Valley of Northern California. All major color designations are by reference to the Dictionary of Color by Maerz & Paul, First Edition, 1930. Common color names are occasionally employed.--

Please replace the paragraph beginning at page 5, line 7, with the following rewritten paragraph:

-- Lenticels - ~~Many in number~~ Approximately 22 small lenticels per square inch - oval shape - 6.35mm to 7.94mm (0.25 inch to 0.3125 inch). Color Code - PI.7 E10 (Chestnut Brown). --

RESPONSE/AMENDMENT

Appl. # 10/828,689

1 Please replace the paragraph beginning at page 5, line 21, with the following rewritten paragraph:

2 -- Shape - Base Shape - Lanceolate, leaf tip acuminate, texture smooth. - -

4 Please replace the paragraph beginning at page 6, line 4, with the following rewritten paragraph:

5 -- Leaf Vein - Color ~~Pl.20 K5~~ Pl.20 K5 (Verdant Green). Thickness -1mm (0.04 inch). - -

7 Please add the following paragraph after the paragraph beginning at page 6, line 5:

8 - - Number of glands - Usually 2 to 3 on each side of petiole of leaf base. - -

10 Please replace the paragraph beginning at page 6, line 11, with the following rewritten paragraph:

11 - - Flower Buds - Hardy under Sacramento Valley climatic conditions. Size - Length - 7
12 to 11mm (0.28 to 0.43 inch). Width - 25mm (0.98 inch). Shape - Generally conic. Color code - PI.3 F3
13 (Bridal Rose, Light Pink) and pubescent. Calyx - 5 sepals - Color - PI.6 L8 (Dark Cardinal Rose)
14 toward the base and PI.7 L7 (~~Vindine Lustie~~ Maroon). - -

16 Please replace the paragraph beginning at page 7, line 3, with the following rewritten paragraph:

17 - - Color - Margins ~~Pl. 3 I3~~ Pl.3 I3 (Weigel). - -

19 Please replace the paragraph beginning at page 7, line 5, with the following rewritten paragraph:

20 - - Anthers - small - Color ~~Pl.7 J2~~ Pl.7 J5 (Tapestry Red). Stamens - Approximately 40, Length
21 10 to 13mm (0.39 to 0.51 inch). Color when first open - PI.4 J3 (Azalea), then change to PI.2 A1
22 (White). - -

24 Please replace the paragraph beginning at page 7, line 9, with the following rewritten paragraph:

25 - - Filament - Color ~~Pl.5 J67~~ Pl.5 J7 (Harvard Crimson Jockey). - -

1 Please replace the paragraph beginning at page 7, line 10, with the following rewritten paragraph:

2 -- ~~Pistol~~ Pistil - Length 12mm (0.47 inch). Number - 1. Color Pl.17 C2 (Seaform y). Surface -
3 Slightly pubescent. --

5 Please add the following paragraph after the paragraph beginning at page 7, line 10:

6 -- Pollen - Color - 9 K 6 (Yellow). --

8 Please add the following paragraph after the paragraph beginning at page 7 line 14:

9 -- Average Weight - 5.9 oz. --

11 Please add the following paragraph after the paragraph beginning at page 8 line 1:

12 -- Base Shape - Medium wide and rounded. --

14 Please replace the paragraph beginning at page 8, line 5, with the following rewritten paragraph:

15 -- Skin Texture - Firm - Smooth. --

17 Please add the following paragraphs after the paragraph beginning at page 8 line 12:

18 -- Flesh Fibers - None. --

19 -- Flesh Aroma - Slight, pleasant. --

21 Please replace the paragraph beginning at page 9, line 8, with the following rewritten paragraph:

22 -- Use - Canning - For processing as canned peaches. --

24 Please replace the paragraph beginning at page 9, line 9, with the following rewritten paragraph:

25 -- Shipping Quality - good - due to firm nature of fruit, it will ship and handle very well at time of
26 harvesting and refrigeration of fruit. --

27 RESPONSE/AMENDMENT

Appl. # 10/828,689

1 Please add the following paragraphs after the paragraph beginning at page 9 line 9:

2 -- Plant/fruit disease and pest resistance/susceptibility - None observed. --

3 -- Keeping Quality - Good shelf life. Kept at room temperature for 3 to 5 days. Has kept in
4 cold storage for up to 2 weeks. --
